

FIRE SAFETY DRILLS

Fire safety drills should be conducted in each school on a regular basis as required by law. Each principal shall be responsible for conducting fire drills and may make such rules and develop such procedures as are necessary to ensure the rapid and orderly evacuation of the school.

Fire safety drills shall be held at least ten times in each school year, and where practicable in the opinion of the principal, be held at least once in each month. A record showing the date of each fire safety drill shall be maintained in the school office.

Fire drills shall include all pupils and all staff in the school.
